9.1 TOURISM BAY OF PLENTY HALF-YEARLY REPORT TO 31 DECEMBER 2024 AND STATEMENT OF INTENT 2025-26 TO 2027-28

Council considered a report dated 26 June 2025 from the Community and Strategic Relationships Manager.

Oscar Nathan (General Manager) and Richard Faire (Head of Strategy and Insights) were in attendance on behalf of Tourism Bay of Plenty (TBOP) to present their Six Month Report as <u>PowerPoint Presentation 1</u>.

They responded to pātai as follows:

- TBOP had not explored the changes to the Eligible Investor Category in New Zealand, and what opportunities there may be in increasing international tourism through international investors. It was noted that the International Strategy Outcomes meeting did raise this particular topic, and Priority One was coordinating a lot of the international outcomes.
- It was acknowledged that more housing would be preferable to help with tourism, noting that the biggest accommodation providers were Air B'n'B and holiday parks. It was noted that part of the reason that people were hesitant to come to the region was the perceived lack of commercial accommodation.
- There was hope that the numbers relating to cruises would increase, noting that there had been a shift in thinking in relation to the importance of the cruise sector under the current government.
- It was acknowledged that both Te Arawa and Tauranga Moana should be referenced within the KPI's for Cultural Wellbeing.
- Despite not having a dedicated cruise passenger facility/terminal, Tauranga Port was listed number one for passenger satisfaction, as passengers were able to

disembark directly from the boat and walk around town/Mauao. TBOP saw real benefit in having a passenger facility at the back of Coronation Park at some stage in the future.

- They acknowledged the concern raised that although everyone was rated for this activity, they may not necessarily see the benefit. It was noted that TBOP was looking into the opportunity for a visitor levy attached to different services, to ensure those that were using the service were paying for it.
- Where there was seasonality that put pressure on local resource, TBOP tried to focus on this area in relation to over tourism.
- There were some programmes on TBOP's agenda that they were continuing to work with. It was noted that there were local operators in Waihī Beach who were proactive in making Waihī Beach distinctive from the rest of Aotearoa.

RESOLUTION CL25-8.2

Moved: Cr M Murray-Benge Seconded: Cr A Sole

- 1. That the Community and Strategic Relationships Manager's report dated 26 June 2025 titled 'Tourism Bay of Plenty Half Yearly Report to 31 December 2024 and Statement of Intent 2025-26 to 2027-28' be received.
- 2. That the report relates to an issue that is considered to be of low significance in terms of Council's Significance and Engagement Policy.
- 3. That Council receives Tourism Bay of Plenty's Half Yearly Report to 31 December 2024, included as **Attachment 1** to this report.
- 4. That Council receives the Tourism Bay of Plenty Statement of Intent 2025-26 to 2027-28, included as **Attachment 2** to this report.
- 5. That Council notes that Tauranga City Council, as joint shareholder, received the Half Yearly Report to 31 December 2024 on 4 June 2025, and will receive the final Tourism Bay of Plenty Statement of Intent 2025-26 to 2027-28 at its Council meeting to be held on 15 July 2025.

9.2 GENERAL RATES CHANGES TO 2025/26 ANNUAL PLAN

Council considered a report dated 26 June 2025 from the Chief Financial Officer. The General Manager Corporate Services supported this discussion by providing an overview of the 'General Rate Funded Changes' and rationale for each change, as highlighted in the report.

It was noted under the <u>Transportation Savings</u> rationale it should state: "As a result of the Transport Activity being brought in house, and cost efficiencies from the completion

of the cycleway project from Tauranga to Ōmokoroa, savings were realised in the 2024/25 financial year."

Staff responded to pātai as follows:

- The savings number that related to personnel changes was 13 and would be able to be seen through the Annual Report.
- The issues that had been occurring through Council's current systems were due to loss of inhouse knowledge with staff leaving over the years, as well as the complex taxation structure and the current systems needing to be upgraded. It was noted that an improved review process had been implemented, and specialist advisors brought in to support this analysis. These improvements should see any last-minute changes mitigated in the future.
- Staff reviewed water volumetric consumption and the option of increasing the volumetric charge and/or the fixed charge. Staff felt they had the balance right at this stage between the two, including the assumption on water usage. It was noted that, due to the volumetric charge increasing, there was still some risk if our community decided to reduce consumption and revenue was not met.
- The rebuilding of the General Rate Reserve was required to ensure that Council could deal with emergencies/unknowns if required.
- The General Rate Reserve was the 'overs' and 'unders' on all general rate activities.
- The numbers discussed at the Audit, Risk and Finance Committee were the actuals for the 2024/25 year, including the landing position for that year. The changes presented today were from the time the draft Annual Plan had been issued and reflected what had been found through the review period.
- With inflation and interest moving at the rate it was, although staff worked with the best figures known to date through the Long Term Plan, the Annual Plan was the opportunity for more accurate figures to be included for that particular year.
- It was noted that as part of the sale of the Electricity Company in the 1980s/1990s, funds were put aside for disaster contingency, noting that there was currently \$9.8 Million.

There was a suggestion from Councillors to consider the following points:

- 1. That the Council write to the Auditor General requesting assistance in reviewing Council's Internal Auditing Programme; and
- 2. That the Council engages for ensic accountants with Local Government experience to review the relevant Council finances.

The Interim Chief Executive noted that in relation to engaging forensic accountants, Council would need to determine what the purpose of the investigation would be, as it would need to have a particular focus. This would be an expensive and time-consuming exercise, so Council would have to determine the rationale. For these reasons, it would need further discussion, also noting that this was not common for councils to undertake. Annual Plan updates provided for the latest information to be reflected and rates to be set. The Interim Chief Executive noted that the Long Term Plan is a forecast.

In relation to Council's Internal Auditing Programme, it was noted that this could be revisited through the Audit, Risk and Finance Committee, including what Council wanted to consider and what the recommendations were. The Interim Chief Executive was supportive of this suggestion.

It was suggested that a paper be brought to an Audit, Risk and Finance Committee workshop to revisit the Internal Audit Programme and consider any possible use of forensic accountants. For this reason, recommendation 2 was added.

RESOLUTION CL25-8.3

Moved: Cr R Joyce Seconded: Cr M Grainger

- 1. That the Chief Financial Officer's report dated 26 June 2025 titled 'General Rates Changes to 2025/26 Annual Plan' be received.
- 2. That Council requests an Audit, Risk and Finance workshop be convened to revisit the Internal Audit Programme and consider any possible use of forensic accountants.

9.3 RECOMMENDATION TO COUNCIL FOR THE ADOPTION OF THE ANNUAL PLAN 2025/26, FINANCIAL CONTRIBUTIONS SCHEDULE 2025/26 AND THE SCHEDULE OF FEES AND CHARGES 2025/26

Council considered a report dated 26 June 2025 from the Acting Policy and Planning Manager. The Deputy CEO/General Manager Strategy and Community took the report as read.

RESOLUTION CL25-8.4

Moved: Deputy Mayor J Scrimgeour

Seconded: Cr D Thwaites

1. That the Acting Policy and Planning Manager's report dated 26 June 2025, titled 'Recommendation to Council for the Adoption of the Annual Plan 2025/26,

Financial Contributions Schedule 2025/26 and the Schedule of Fees and Charges 2025/26', be received.

- 2. That the report relates to an issue that is considered to be of **medium** significance in terms of Council's Significance and Engagement Policy.
- 3. In accordance with section 80 of the Local Government Act 2002, Council acknowledges that the decision to fund the Community Boards from the general rate in the Annual Plan 2025/26 is inconsistent with Council's Revenue and Financing Policy. The reason is due to the timing of the Local Government Commission determination on the representation review which meant there was inadequate time for consultation on any changes to rating to occur. Council intends to review the approach to funding for community boards as part of the Annual Plan 2026/27.
- 4. That Council adopts the Annual Plan 2025/26 (**Attachment 2** of this report), as recommended by the Annual Plan and Long Term Plan Committee.
- 5. That Council adopts the Structure Plans (**Attachment 3** of this report), as recommended by the Annual Plan and Long Term Plan Committee.
- 6. That Council adopts the Financial Contributions Schedule 2025/26 (**Attachment 4** of this report), supported by the Disclosure Tables for Financial Contributions 2025/26 (**Attachment 5** of this report), as recommended by the Annual Plan and Long Term Plan Committee.
- 7. That Council adopts the Schedule of Fees and Charges 2025/26 (**Attachment 6** of this report), as recommended by the Annual Plan and Long Term Plan Committee.
- 8. That the Chief Executive Officer be delegated authority to make such minor editorial changes to the final documents for publishing as may be required.
